

Embrace the Cloud revolution and Achieve More.

- June 9th Data Fundamentals
- June 10th AI Fundamentals
- June 11th Azure Fundamentals
- June 12th Azure Fundamentals (recorded webinar only)

Students don't miss out on this exclusive, time-limited training opportunity. Further to the huge success of our AI Webinar series in April we are now bringing you additional **Microsoft Fundamentals** courses and a competition with amazing prizes!

- Provide you with skills aligned to relevant industry job roles.
- Help you achieve learning and career objectives.
- Boost your employability with free certifications on real-world skills.

Join us and make the most of this professional-level training opportunity on cloud computing technologies, in a series of one-day courses for Students during June, **delivered live and free of charge by expert instructors.**

Gain valuable knowledge of how the cloud is impacting the world we live in and how you can learn and take the **Microsoft Fundamentals** exams to get certified by Microsoft, all free of charge.

These instructor-led courses starts with a day-long live event. You will then receive an email with:

- A self-study **resource pack**.
- Instructions to activate **\$100 of Azure** credit to gain experience on Azure AI services.
- A **MeasureUp Practice Test** so that you are 'exam ready'.
- **Free** Fundamentals certification exam.
- Details on how to schedule and take your online exam*.

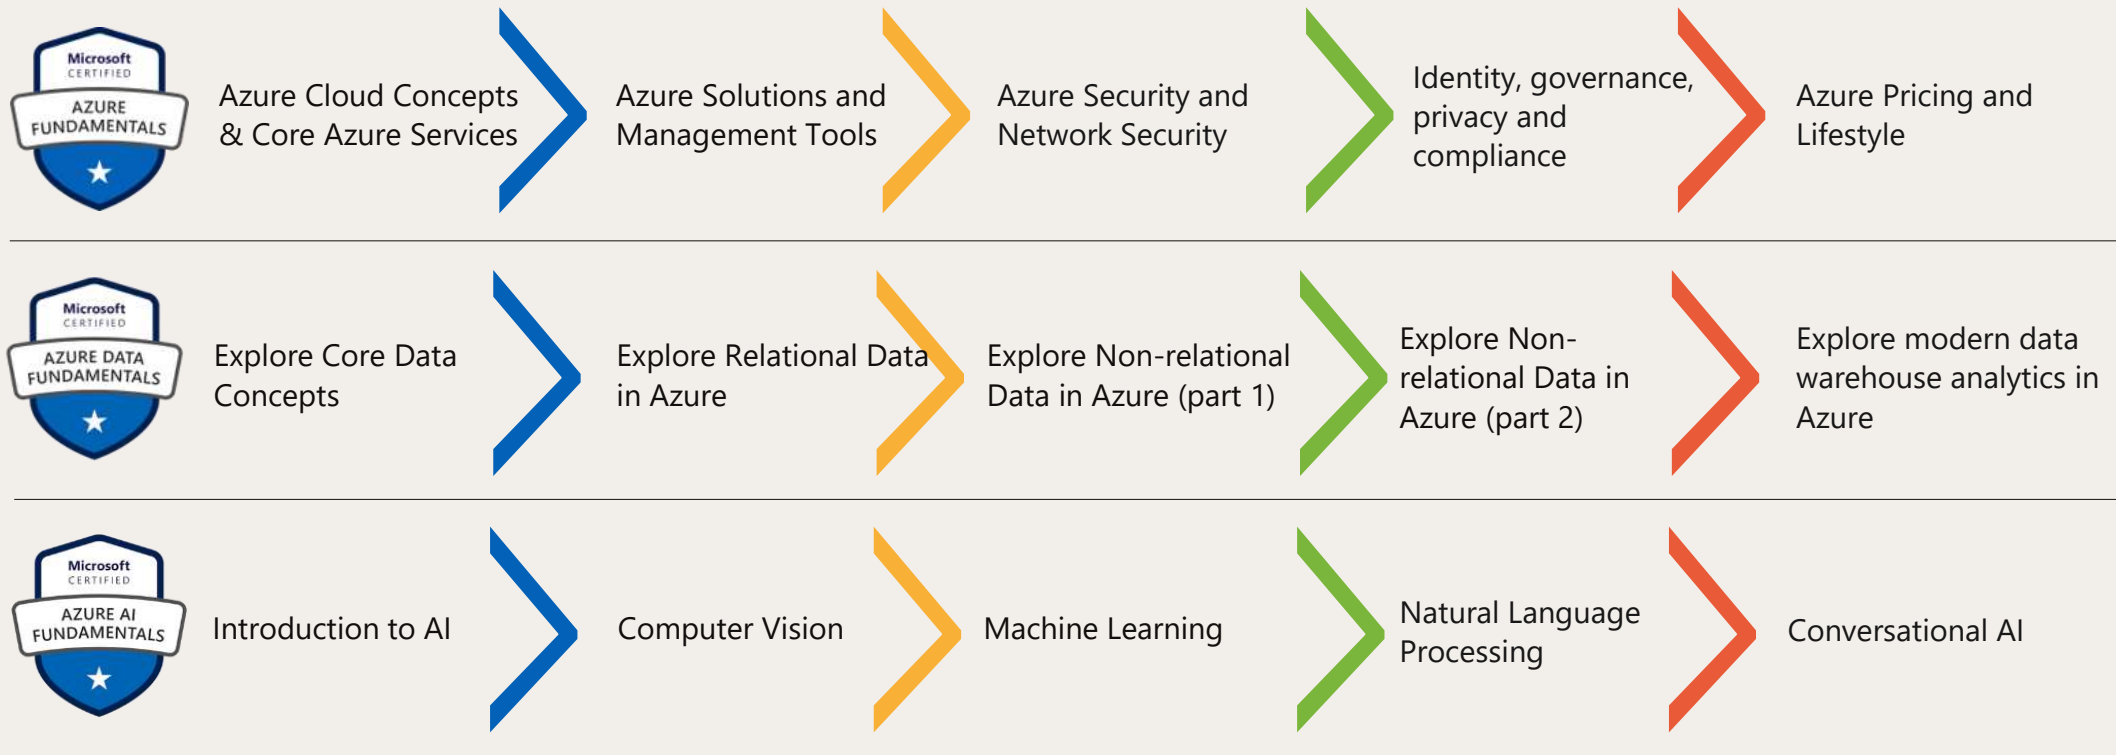

*To be taken before the end of June 2021 using our Certiport 'Exams at Home' platform.
